

# SEE. ACT. CHANGE.

---

**Are you passionate about writing articles, taking pictures, drawings or creating visual art?** Do you want to share your ideas with others and gain some more professional experience for your portfolio or CV?

**EYCE's Campaign to Overcome Poverty "Break the chains!"** is about to put together another issue of the online magazine "See. Act. Change." and is looking for the volunteers who would like to contribute to the content of the magazine. The third issue is planned for 14th December 2015!

You can contribute either with your **personal experiences, projects** running in your country or area focused on the main topic of the campaign - poverty, or **stories about people** affected by poverty. The main focus of the third issue of the magazine will be: faces of poverty. Every situation is different, and individuals can be effected in different ways in a whole variety of contexts. Therefore in this issue we want to highlight the effects poverty has on real people and show concrete cases.

**If you are interested, please contact us via email [breakthechains@eyce.org](mailto:breakthechains@eyce.org)! The campaign coordination team is looking forward to your contribution by 23th November!**
